

PivotPoint

LAND USE VALUATION > CALCULATOR

EASILY CREATE LAND USE REPORTS IN SECONDS

- Simplified web-based interface requires no specialized GIS skills or expensive desktop software licensing
- Enables any member of an Auditor's office (not just GIS staff) to run reports for CAUV properties
- Iterative workflow; simply enter a parcel number to create a Land Use Value report in PDF format

PURPOSE-BUILT TOOL DESIGNED TO ADDRESS OHIO'S CAUV NEEDS

- Create and maintain boundary polygons
- Ability to override deeded and right of way acreage
- Easily generate reports for potential parcel splits and what-if scenarios
- Scaling control between the GIS and deeded acreage to provide accurate breakdowns
